

INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

Fiscal year 2021

INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

(REPORT IN ACCORDANCE WITH SECTIONS 289 (4) AND 315 (4) HGB)

The scope and form of INDUS Holding AG's accounting-related internal control system (ICS) are at the discretion of and the responsibility of the Board of Management. The Supervisory Board monitors the accounting process and the effectiveness of the ICS. The viability and effectiveness of the ICS at the portfolio companies is also assessed by the auditors of Group companies' financial statements. The viability and effectiveness of the ICS for INDUS Holding AG itself are assessed by the Board of Management.

The ICS is a set of principles, procedures, and measures aimed at ensuring proper accounting, which undergoes continuous optimization. The ICS is structured in such a way that the consolidated financial statements of INDUS Holding AG are prepared in accordance with International Financial Reporting Standards (IFRS) as applicable in the European Union (EU), and with the commercial code provisions as per Section 315e (1) of the German Commercial Code (HGB), which must additionally be observed. The annual financial statements are prepared in accordance with the German Commercial Code (HGB). The ICS is structured for maximum security. Regardless of its structuring, however, the ICS cannot provide absolute assurance of the avoidance or identification of accounting errors.

The consolidated accounting (hereinafter abbreviated as "accounting") and management report drafting processes are managed by the responsible employees in the consolidated accounting and management control departments of INDUS Holding AG. Changes in the law, accounting standards, and other official acts are assessed for their relevance to and impact on the accounting process. Any resultant changes in the accounting processes are incorporated into centrally available procedural instructions and systems used for accounting purposes. The Group's current accounting policy is communicated to all employees of INDUS Holding AG and the portfolio companies who are involved in the accounting process. These elements, together with the financial statements calendar that is applicable Group-wide, constitute the basis of the financial statement preparation process.

The portfolio companies prepare their financial statements for consolidation purposes ("reporting packages") in accordance with the provisions of the Group's consolidated accounting guidelines. Reporting and consolidation processes are carried out at all portfolio companies by means of a standardized IT system, which is made available by INDUS Holding AG via a centralized procedure. This process for uniform, proper Group accounting is supported by procedural instructions and standardized consolidated accounting. In some cases, external service providers are engaged as well, for example to assess pension obligations.

To avoid risks in the accounting process, the ICS involves preventative and probing internal control procedures. These include in particular automated and manual reconciliation, separation of responsibilities, and dual review. These controls and instruments are continually optimized whenever weaknesses are identified, to eliminate potential risks.

The management control and consolidated accounting departments of INDUS Holding AG ensure, through the appropriate processes, that the provisions of the consolidated accounting guidelines are complied with. Employees involved in the accounting process receive regular training. The portfolio companies are supported by central contact individuals throughout the entire accounting process.

The Board of Management of INDUS Holding AG and the managing directors of the portfolio companies are responsible for compliance with the pertinent guidelines and accounting procedures. They also ensure that their accounting processes and systems run properly and on time.
